## UNITED STATES FOREIGN TRADE

SUMMARY REPORT  
FT 950-I

JUNE 1959

FOR RELEASE  
August 12, 1959

### IMPORT TRADE BY COUNTRY

The Bureau of the Census, Department of Commerce, announced today that the increase in United States general imports from \$1,263.8 million in May to the record total of \$1,369.4 million in June, reflected increases in imports from all areas as follows: Canada from \$264.5 to \$301.4 million; Latin American Republics, from \$306.1 to \$322.2 million; dependencies of Western Europe, from \$68.2 to \$81.9 million; Western Europe, from \$387.7 to \$391.7 million; and "all other countries", from \$237.3 to \$272.1 million.

Imports from sterling area and O.E.E.C. countries increased from \$227.2 to \$240.6 million and from \$374.2 to \$378.4 million, respectively. Imports from all continents increased during the period.

Imports from North America rose from \$402.9 million in May to \$444.9 million in June primarily as a result of the substantial increase in imports from Canada, as noted above, and to lesser increases in imports from the Netherlands Antilles, from \$13.7 to \$18.7 million and Cuba, from \$49.7 to \$54.4 million. However, imports from Mexico dropped from \$40.4 to \$34.9 million.

Gains in imports from Japan, from \$78.1 to \$88.9 million, Kuwait, from \$10.1 to \$19.8 million; and the Republic of Indonesia, from \$13.6 to \$22.9 million, accounted for most of the increase in imports from Asia, from \$203.1 to \$232.9 million. Imports from South America rose from \$193.3 to \$210.1 million largely as a result of a sizeable increase in imports from Venezuela, from \$62.4 to \$86.9 million which was partly offset by a drop in imports from Brazil, from \$53.8 to \$38.5 million. Imports from Africa climbed from \$42.3 to \$49.8 million due partly to higher levels of imports from the Union of South Africa, from \$7.6 to \$11.1 million and the Federation of Rhodesia and Nyasaland, from \$2.1 to \$4.9 million.

During the period, imports from Europe increased slightly from \$393.9 to \$399.7 million. Figuring in this increase were gains in imports from Belgium and Luxembourg, from \$34.8 to \$40.2 million and West Germany, from \$75.2 to \$80.2 million, which were partly offset by a drop in imports from the United Kingdom, from \$102.5 to \$98.0 million. Imports from Australia and Oceania advanced from \$28.3 to \$32.0 million.

### EXPLANATION OF STATISTICS

**COVERAGE:** Import statistics include merchandise imported by government agencies as well as by private importers, but exclude American goods returned by the United States armed forces for their own use. United States trade with Puerto Rico, Hawaii and United States possessions is not included in this report but the import trade of Puerto Rico and Hawaii with foreign countries is included as a part of the United States import trade. Merchandise shipped in transit through the United States between foreign countries is not included in import statistics.

**COUNTRY DEFINITION:** Though the country which should be reported in the statistics as the country of origin is defined as the country where the merchandise was grown, mined or manufactured, the country actually shown in the statistics may in a number of cases represent some other country, such as the country of purchase, lading, or the country in which mixed lots of various origin are consolidated. It follows, therefore, that imports from such merchanting or transshipment countries are likely to be overstated and imports from other countries correspondingly understated.

**VALUATION:** Import values are, in general, based on market price or selling price, and are, in general, f.o.b. the exporting country. They exclude United States import duties. None of the values have been adjusted for changes in price level.

**EFFECT OF SAMPLING:** Effective January 1958, formal entry shipments valued less than \$100 and informal entry shipments valued \$250 or less (less than one percent of total import value) are estimated by sampling. The estimated values are included in the area, continent, and country totals in the table. (During 1954-1957, imports valued at \$250 or less reported on formal and informal entries were estimated by sampling.) The variability in the import figures due to sampling is no more than three percent or less than \$50,000. The largest variation from rounding of figures is \$50,000.

Further information regarding coverage, country definition, valuation, etc., is contained in the "General Explanation" in foreword of Report No. FT 110. For complete statement, see the foreword in Foreign Commerce and Navigation of the United States.

## UNITED STATES GENERAL IMPORTS, BY COUNTRY OF ORIGIN: JUNE 1959 AND SELECTED PERIODS

(Value in millions of dollars. N.e.c. indicates not elsewhere classified. General imports are a total of imports for immediate consumption plus entries into bonded warehouses. Figures for 1959 are as originally issued and have not been revised to include published corrections. Figures for 1958 include revisions published with the December 1958 reports, or earlier, but do not include revisions published during 1959. See "Explanation of Statistics" for information on sampling procedures and effect thereof on the data shown.)
